DIAL INDICATOR ONE-REVOLUTION

-  Unlike many other dial indicators, the one revolution dial indicator literally shows the entire spindle travel or range as one sweep of the hand, eliminating the possibility of reading errors due to miscounting the multiple revolutions
-  With one-revolution dial indicators, "within tolerance" and "out-of tolerance" can never misinterpreted
-  An unique shock-proof mechanism is incorporated, providing improved immunity to shock due to sudden spindle retraction caused by high impact
